27 August 2019

Dear Marc, Joanne, Johan and Bruce

Letter of Thanks and Appreciation

Thank you so much for allowing us the privilege of being able to salvage many things from the buildings that are currently being demolished in the Cape Quarter. Campbell Brummer heard about some of the projects that we are involved with and was instrumental in arranging the opportunity.

We have been and remain involved in several projects in previously disadvantaged communities. We hope to be able to use most of what was salvaged in these projects. Already there is a church in Lavender Hill which now has an entire kitchen from what was repurposed.

We are currently involved in erecting a church building in Harare, Khayelitsha which in addition to being a church, will also be used for Community Development in due course.

We want to acknowledge your generosity and thank you for the amazing opportunity you afforded us to benefit from your property.

Kind Regards

Howard Wylie
